

Jianke Yu 俞鉴珂, PhD

PhD (2026) in Graph Machine Learning & Databases

Hangzhou, China · yujianke100@gmail.com · jianke-yu.online · Google Scholar · ORCID · DBLP · GitHub

RESEARCH INTERESTS

Machine learning for graph-structured data and database systems: graph neural network architectures for incomplete, heterogeneous and temporal graphs (fraud detection, malware detection, graph similarity computation), and learning-based methods that accelerate database and data-mining algorithms.

Keywords: Graph Neural Networks, Graph Databases, AI for Databases, Fraud Detection, Knowledge Graphs

EDUCATION

PhD, Information Technology · University of Technology Sydney 2023.07 – 2026.09

Conferred 9 September 2026. Supervised by Prof. Ying Zhang and A/Prof. Lu Qin. Thesis: "Fraud detection on the customer-product bipartite graph" (learning-based algorithms for graph-structured data and database systems). Published in KDD 2023 and IEEE TKDE (2024, 2025, 2026). Recipient of the UTS FEIT HDR Excellence Award, Individual Category, Distinction (2025).

M.Eng, Electronic Information · Zhejiang Gongshang University 2020.09 – 2023.06

Supervised by Prof. Xiaoyang Wang. Research on graph representation learning, fraud detection and graph similarity computation.

B.Eng, Electronic Information Engineering · Zhejiang Gongshang University 2016.09 – 2020.06

APPOINTMENTS & EXPERIENCE

Incoming Faculty Member · Zhejiang Gongshang University 2027.03 (incoming)

Joining as a faculty member (talent introduction programme), School of Computer Science and Information Engineering / related department.

Research Intern · Token Foundry, Alibaba Token Hub, Alibaba Group 2025.12 – Present

Research on graph learning methods for industrial data systems.

Research Assistant · University of Technology Sydney 2023.07 – Present

ARC Discovery Project. Graph neural networks, graph similarity search and learning-based database algorithms.

Guest Lecturer · University of Technology Sydney 2025.01 – 2025.12

Guest lecturer for UTS 43023 Emerging Topics in AI (Spring 2025).

Research Intern · DAMO Academy / Alibaba Cloud, Alibaba Group 2022.07 – 2023.04

Fraud detection on e-commerce platforms (work later published in KDD 2023 and IEEE TKDE).

Research Intern · Taobao, Alibaba Group 2021.11 – 2022.03

Graph-based user modelling and risk analysis.

PUBLICATIONS

19 peer-reviewed papers (10 journal, 9 conference), 6 as first author, 7 CCF-A, 119 citations.

INVITED TALKS

Scalable Big Data Computation · Seminar, School of Data Science, The Chinese University of Hong Kong, Shenzhen 18 Apr 2026

HONORS & AWARDS

Award for Outstanding Overseas Study Elite (2025–2026) · China Scholarship Council 2026
National-level award for outstanding self-financed PhD students abroad.

UTS FEIT HDR Excellence Award — Individual Category, Distinction · University of Technology Sydney, Faculty of Engineering and IT 2025
Faculty-level award (Distinction) for research excellence during HDR candidature.

UTS ARC Discovery Project Scholarship (Full Scholarship) · University of Technology Sydney / Australian Research Council 2023

UTS International Research Scholarship · University of Technology Sydney 2023

Excellent Practical Achievement Award for Professional Master Students · Education Department of Zhejiang Province 2022
Provincial award for outstanding professional master's practice achievements.

Second Prize, 4th Zhejiang Province University Student Robotics Competition · Zhejiang Province

Second Prize, “Internet+” Innovation and Entrepreneurship Competition · Zhejiang Gongshang University

ACADEMIC SERVICE

Peer Reviewer · IEEE Transactions on Knowledge and Data Engineering (TKDE) 2025

Platform Administrator · Research Computing Platform, Prof. Ying Zhang & Prof. Xiaoyang Wang's Team, Zhejiang Gongshang University 2024–

TEACHING

Guest Lecturer · 43023 Emerging Topics in Artificial Intelligence, University of Technology Sydney Spring 2025

Teaching Assistant · COMP9311 Database Systems, UNSW Sydney Term 3 2023

Teaching Assistant · DATA1001 Introduction to Data Science, UNSW Sydney Term 2 2024, Term 2 2025

SKILLS

Technical Skills: Graph Neural Networks, Python / PyTorch, Graph Databases & Query Processing, Data Mining & Fraud Detection

Research & Service: Academic Writing & Publishing, Peer Review (IEEE TKDE), Teaching & Student Supervision

Languages: Chinese (Native), English (Fluent)
